

Phyllodes

Bermudian - juncea caule albesimo Plum.

*Trichotoma* Phylloides paniculis *Trichotomis*, pedunculis, pedicellisque rectis cla-  
ratis, foliis ovalibus acuminatis

Habitat in Aequa pini Guinea Islet 7

Caulis, ut videtur, dichotome ramosus: rami articulati, triquetri, suprema  
rellesi subinerei, vaginis foliorum recti. Folia spithamea, alterna  
glabra, pollicis 6. Plana, acumine acuto unguiculari terminati  
anuatim confestim tenuissime nervosae, lineae 80 p. 3-4 ab apice  
ad basin ducto obscurae. Petioli articulus unguicularis, veretiuscu-  
lus. Pedunculi a basi articulorum, vaginis oppositi, solitarii, primum  
dichotomi, dein *Trichotomi*, folio longiores, articulati: articuli primum  
sensim minores, apice latiores; geniculi pilosi vaginati: vagines  
lineares, deciduae, longitudine articulorum

pedunculi in Ph. Surin. flexuosi

placentana Phylloides  
Potted erica vaginata L.

aggregata Ph. species compositi spiculis aggregatis petioli  
superne articulatis  
Habitat in Canbosi

tuberosa Boek: glabra, caule erecto frutescente, foliis cordatis, radice tuberosa  
La Mark P. Eni: pag. 10.

Herba purgationis Lew. per. 3. tab 10

Habitat in Peni

Solia latiora quam in sicca dente
